Cette table de mortalité a été revue et corrigée pour mieux correspondre au type de quotients utilisés (une note explicative complète sur ce sujet est en préparation). Les changements principaux concernent :

---

Cette table de mortalité a été revue et corrigée pour mieux correspondre au type de quotients utilisés (une note explicative complète sur ce sujet est en préparation). Les changements principaux concernent :

- la série des âges (qui commence par «birth», représentant l'âge exact 0, se poursuit par les âges révolus et se clôture par l'âge «104+») et
- le calcul de l'espérance de vie (moyenne arithmétique des âges au décès de la table à partir d'un âge donné, diminuée du nombre d'années déjà vécues pour atteindre cet âge).
