

Centro Centroamericano de Población: Tablas de vida completas, Costa Rica 1950-2015.
Downloaded from <https://ccp.ucr.ac.cr/>(27.06.2019).

Notes:

Life tables were produced by Luis Rosero Bixby, as a result of a collaboration of the Centro Centroamericano de Población (CCP) of the Universidad de Costa Rica and the Superintendencia de Pensiones. Last update of these data was made on March 21 2019.

Life tables from 1950 to 2005 were revised with 2011 census data.

The CCP publishes additional methodological documents produced by Luis Rosero Bixby. These material can be very useful for a better understanding of the data and life table construction procedures:

- [Tablas de vida 1950-55 a 2005-10](#): Description of Costa Rican life tables of 2005-2010 and the revised estimates of the life tables from 1950 to 2005.
- [Tablas de vida 2010-15](#): Description of the construction of Costa Rican 2010-2015 life table.
- [Evaluación datos 2010-15](#): Assessment of the 2010-2015 life tables data.
