Table 7.6 shows summary demographic indicators based on population by age and sex and total deaths. This spreadsheet computes the Coale-Demeny West region model life tables, by sex, consistent with the population, by age and sex, and the crude death rates. In 2000, the life expectancy for females was 73 years and for males has 67 years.

Table 7.6. Summary Demographic Indicators, Palau: 2000

Item	Both sexes	Male	Female
Life expectancy	69.49	66.83	72.82
Infant mortality rate	0.031	0.038	0.022
Crude birth rate per 1,000 population	9.62	9.80	9.41
Crude death rate per 1,000 population	7.11	7.11	7.11
Rate of natural increase (%)	0.251	0.269	0.230
Total deaths	136	74	62

## CONCLUSIONS

Palau continues to experience continued low mortality, and, therefore, high life expectancy at birth. Female life expectancy at birth was 73 years, based on the 2000 census. Both age specific mortality and infant mortality rates are low. Health care on island is very good, with both access and attention very high.
