Note: Life expectancy in 2023 have been affected by higher mortality rates, particularly those observed in 2022, arising from the COVID-19 pandemic. They may not accurately represent the number of years individuals can expect to live, if mortality rates return to pre-pandemic levels.

Note: Life expectancy in 2023 have been affected by higher mortality rates, particularly those observed in 2022, arising from the COVID-19 pandemic. They may not accurately represent the number of years individuals can expect to live, if mortality rates return to pre-pandemic levels.
